TRES RÍOS  
*Resort, Spa & Nature Park*

TRES RÍOS, RIVIERA MAYA, MÉXICO

Welcome to Hacienda Tres Ríos, the only environmentally responsible luxury resort that offers exclusive access to the Tres Ríos Nature Park in the Riviera Maya, with an Endless Luxury all inclusive plan.

REAL LUXURY COMES NATURALLY

**GREENFACT** » Hotel guests have an option of making their stay carbon-free by participating in the Travel Green™ Program. We choose not to pollute the air.

## IT IS ALWAYS A PLEASURE TO HAVE YOU HERE

We have prepared for you the comfort of a luxury resort, the services of a world class spa and all the fun of a Nature Park exclusively for your enjoyment, all in complete and respectful balance with nature.

Discover our Endless Luxury all inclusive plan. The hotel features 273 luxurious suites, five restaurants and four bars, fitness center, exit lounge, spa facilities, a one-mile stretch of peaceful beaches, and fine entertainment for the whole family.

**GREENFACT** » Our air conditioning system saves 40% of the energy needed to cool the hotel, and the heat generated by it is used to heat the water used in our facilities. We choose to use our energy resources wisely.

## LET US SHOW YOU OUR LUXURIOUS ACCOMODATIONS

The hotel features 273 suites in three different types, starting from 645ft<sup>2</sup>, all elegantly decorated with Mexican mahogany furniture, marble floors, personal touch-screen concierge, flat screen satellite TV, wireless internet, and a minibar restocked daily.

To ensure a restful night's sleep, our beds feature three layers of deluxe 300-count Egyptian cotton linens, a pillows menu, fine bath robes and luxury amenities. Enjoy our 24-hour room service comfortably seated on your private balcony while admiring the view of the spectacular Caribbean Sea or the peaceful channels and mangroves that meander throughout the property.

**GREENFACT** » Our buffet service, available in only one restaurant, operates with the concept of *Petit Gourmet Buffet*, which offers only small, well presented portions. We choose to avoid food waste.

## THE CHEF AT YOUR SERVICE

I have designed an exquisite mixture of flavors, aromas, and textures to delight your palate.

My personal suggestion: start the day with our famous *Petite Gourmet Buffet* and reserve a different culinary adventure every day for dinner.

We have a wide variety of specialties, from fine Mexican cuisine and Italian delights, to an exotic Asian fusion that will captivate your senses. Our staff of experts is prepared to provide you with every detail about our wine collection and the fine selection of spirits available in our bars.

**GREENFACT »** By the end of 2010, we will have reforested 100,000 mangrove trees. Mangroves provide shoreline protection against storms and waves, and help clean the water by trapping sediments.

## WHAT WOULD YOU LIKE TO DO?

Your Endless Luxury plan provides you with unlimited access to the 326 acres of the exclusive Tres Ríos Nature Park: three natural rivers, ten water springs (cenotes) and exuberant mangrove forests.

Let us help you plan your days. Our options for the enjoyment of children, teens, and adults are endless: bicycle tours, swimming, snorkeling and kayaking down the rivers, guided tours through nature paths, the fascinating SenseAdventure (a Tres Ríos exclusive), a joyful Caribbean evening, and much more. Or just unwind and get the perfect suntan lying on a Balinese bed at the beach.

**GREENFACT »** The continuous hot water flow system in the bathrooms enables hot water to reach faucets within three seconds, so less water is wasted. We choose to save water.

## RELAX, LET US TAKE CARE OF YOU

Complement your visit by hiring our spa services. We have a wide range of treatments that combine the benefits of modern techniques with ancient Mayan traditions. Ask for our traditional Temazcal, a pre-Hispanic ritual of purification, another extra not to be missed.

Your Endless Luxury plan gives you access to our luxurious facilities: sauna, steam room, Jacuzzi, lockers, and fitness center. Find balance, come back to nature, and find the harmony within.

**GREENFACT** » Only 2% of Earth's water is fresh. A desalination plant converts salt water into the highest-quality, fresh water for consumption in the hotel. We choose not to use the fresh water of our aquifers.
